EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

To correct an obvious typographical error in claim 20, line 3, change: "lest" to -- least--.

The following is an examiner's statement of reasons for allowance: None of the references of record teaches or suggests the claimed method for forming a non-volatile resistance variable device including the steps of removing unreacted elemental selenium from the substrate; providing a first conductive electrode in electrical connection with one portion of the patterned mass comprising silver selenide; providing a germanium selenide comprising material in electrical connection with another portion of the patterned mass comprising silver selenide; or exposing the substrate to oxidizing conditions effective to both, a) react elemental selenium received over the first portion with elemental silver to form the patterned mass to comprise silver selenide, and b) remove elemental selenium of the layer over the second outer portion from the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
